

1st Middle East SATLABS DVB-RCS Symposium

Dr Harald Skinnemoen

AnsuR Technologies
Symposium Organizer

Purpose and Motivation

- Bring together
 - users, operators and service providers,
 - managers and policy makers,
 - equipment manufactures and non-profit organizations

- in an environment where all can find solutions and create business with the open standard for satellite communications, ETSI DVB-RCS.

Why Symposium...!?

- Ancient Greek symposia were a key social institution.
 - A forum for men to debate, plot, boast, or simply to party.
 - Symposia were held to celebrate special occasions
 - Such as victories in athletic and poetic contests
 - Men would recline on couches arrayed against the walls
 - Food, wine and entertainment was provided,
 - A symposium would be overseen by a *symposiarch*
 - Would decide how strong or diluted the wine would be
 - Depending on how serious discussions were taking place.
 - Symposiasts could compete in rhetorical contests
- Symposium has come to refer to any event where multiple speeches are made.

Symposium Agenda – Session 1

10:00 Opening

Harald Skinnemoen, Organizer, Managing Director AnsuR

10:10-11:30 –Session 1.

Latest Status and achievement of DVB-RCS

Session Chair: Harald Skinnemoen, AnsuR

□ Essentials of the DVB-RCS Standard

■ Chairman DVB-RCS Group, Prof. Gunnar Stette,

□ DVB-RCS enables new networking solutions for the broadcast industry

■ Jean-Pierre De Muyt, Newtec, Director of Business Development and Product line Manager for Broadband Access Systems

□ DVB-RCS - A versatile standard for all VSAT applications

■ Thor Reitan, Nera SatCom, Senior Sales Manager

□ DVB-RCS Interoperability – The true benefit of DVB-RCS

■ Xavier Lobao, SatLabs Chairman

Symposium Agenda – Session 2

12:00-13:30 Session 2:

Building Efficient Networking Solutions with DVB-RCS

Session Chair Prof. Gunnar Stette, DVB-RCS Group

- Commemoration to Ms Penny Glover and her contributions to the satellite communications community.
 - Advantech

- **Making DVB-RCS affordable for all network sizes**
 - Peter Garland, VP Systems & Customer Engineering, Advantech Satellite Networks

- **DVB-RCS, one standard many applications**
 - Ulrich Kiebler, ND SatCom, Director

- **Providing DVB-RCS services in the Middle East region**
 - Jaafar Najdi, CEO, Streamlink Communications

- **Experiences using DVB-RCS in the Middle East**
 - Hamed Henni, Sales Director, Divona

- **13:30 – 15:00 LUNCH**

Symposium Agenda – Session 3

15:00-15:40 Session 3:

DVB-RCS in a Broader Context

Session Chair Xavier Lobao, SatLabs

- **Regulatory and Proprietary Market Access Requirements for DVB-RCS Terminals**
 - Uwe Kartmann, CETECOM

- **The DVB-RCS competitive opportunity for new services**
 - TriaGnoSys, Dr. Axel Jahn, Managing Director

15:45 -16:45 – Panel with Q&A

Visions for the Middle-East. Where is Satellite Communications and DVB-RCS going?

- **Moderator: Martin Jarrold, Global VSAT Forum**

- Questions from the room

Panelists

- David Burr, New Skies Satellites B.V.
- Ulrich Kiebler, ND Satcom
- Thor Reitan, Nera SatCom
- Jean-Pierre De Muyt, Newtec
- Peter Garland, Advantech Satellite Networks

17:00 – Refreshments - Talks with DVB-RCS companies and organizations

- Ca. 17:30 – New Skies / Streamlink Cocktail Reception

Our Sponsors – Thank You!

- *Newtec*
- *Advantech Satellite Networks
(formerly EMS SatNet).*
- Nera
- NewSkies
- ND SatCom

1st Middle East DVB-RCS Event

- ❑ A SatLabs Symposium at ESA gathered around 100 people
- ❑ DVB-RCS at Futurecom in Brazil 2004/2005 were great success
- ❑ Planning a DVB-RCS Symposium also under APSCC in September 2006
- ❑ This shows some of the great interest in DVB-RCS
 - as the only open, multi-vendor satellite standard
- ❑ Symposiasts - We wish you a good symposium!
